

# Where next?

Join us and shape the future of travel

Shaping the future of travel has always been important to us at Amadeus. Today, with technology getting smarter by the minute, that future is more exciting than ever.

At Amadeus, we have the chance to make a difference for millions of journeys worldwide because we work at the heart of the global travel industry.

The company's main centre of R&D & Product Marketing is in Sophia Antipolis where our high-tech excellence has its roots.

It's also here that we develop tomorrow's solutions for the travel industry.

We are driven by a passion for 'Where next?'

If you want to shape your career and the future of travel,

Amadeus is the place for you.

# Amadeus is looking for...

## Product Manager

At the heart of the **French Riviera, in Sophia Antipolis**, you will join an exceptional and multicultural site, where more than 3,000 people from more than 60 different nationalities work together every day.

Within a multidisciplinary team, your role will be to:

- **Identify opportunities for developing new (or enhancing existing) products through analysis of market, competitor, customer information and knowledge of Amadeus' potential offering**
- **Establish customer business objectives then determine and document product concept**
- **Establish or validate business cases**
- **Contribute to the elaboration of contracts with internal legal representatives**
- **Develop and communicate product strategy including specific marketing mix (product, price, place, promotion)**
- **Define and manage product road map**
- **Build third party notification and rollout plans**
- **Support sales activities through product overview presentations and documentation emphasising value to specific customers**
- **Monitor product success and define corrective actions as necessary**
- **Build, update and follow-up product line P&L.**

With a **business school or engineering degree**, you are a **functional expert in our domain** (Airline, Travel, Hospitality industry...). **IT Knowledge is essential. Proficiency in English is mandatory.**

Experience in large system implementations / change management is a plus.

You are **customer focused, accountable and proactive. Good communication and presentation skills** (with IT customers at senior management level) are required.

You have a **minimum of 5 years work experience**, including **3 years in product management, business analysis or product development**.

We offer a **competitive package** with **outstanding benefits** and an **attractive work environment**.

**We hope to welcome you soon!**
